These statements are based on assumptions derived from market trends, economic conditions, changes in the financial industry environment, laws and regulations, tax systems, and other information that is currently available to the Company. Message from the President

Transforming to a customer-oriented stock-type business

As a result of everyone's support, in August of this year Ichiyoshi will celebrate its 70th anniversary.

This is thanks to the continued patronage of our customers, and also to our shareholders and all of our stake-holders. I would like to sincerely thank all of you.

Based on the motto of "Build a Securities Company like No Other in Japan," all members of the Ichiyoshi staff have combined their efforts to achieve true customer-oriented asset management, adapting to the changing times while also carrying on the unyielding foundation that has supported our business from the beginning. Focusing on quality rather than an extensive lineup, we have set a management objective of being a "name-brand boutique house" in the financial industry based on face-to-face sales and driven by the aim to be every customer's first choice.

All executives and employees carry with them a copy of our "Credo," which collects the ideas that support this kind of company, as well as the action guidelines that all executives and employees must strive to follow as we work to be chosen as an irreplaceable partner by the customers.

For more than 20 years, Ichiyoshi has been working to transform from a business model focused on brokerage to a customer-oriented stock-type business for medium- and long-term diversified investment.

Specifically, we assist with asset development that leads to growth while protecting the valuable assets of the customers. We utilize the core assets where the goal is stable management as a foundation, and provide reliable guidance regarding medium- and long-term diversified investments composed of combinations of the

small- and medium-cap growth stocks that are the Ichiyoshi strength. We will strive to meet the expectations of a wide range of customers including individuals, institutional investors, financial institutions, and corporations.

Beginning from April 1, 2020, our new management team is working based on the new Medium-Term Management Plan "Attack 3." We ask for your continued guidance and support.

Management Strategies

Shareholder Return Policy

One of Ichiyoshi's core management policies is to make an appropriate earnings distribution to its shareholders. Ichiyoshi places its stress on a continuous stream of dividend payments linked to business results. In deciding on an amount of dividend payment, payout ratio is a basic measure. Additionally, DOE (the ratio of dividends to shareholders' equity) measure is taken into account in order to continue the appropriate return of profits to our shareholders.

Specifically, Ichiyoshi has currently adopted a payout ratio of approximately 50% and DOE of approximately 2%, both measures being calculated semi-annually on a consolidated basis and the larger result of calculation between the two measures being chosen.

Under this dividend policy, the interim dividend per share paid out of retained earnings to shareholders of record as of September 30, 2019 was 16 yen, based on DOE, and the final dividend per share payable out of retained earnings to shareholders of record as of March 31, 2020 was 16 yen, also based on DOE. Thus, the annual total of dividend per share was 32 yen.

*For the fiscal period ending March 2016, we adopted the payout ratio for the interim dividend and DOE for the year-end dividend. The values shown here are calculated on a semi-annual basis.
