[Reasons for Non-Compliance with the Principles of the Corporate Governance Code]

The Company complies with all principles contained in Corporate Governance Code.

[Disclosures Based on the Principles of the Corporate Governance Code] Update

[Principle 1-4 --- Policy-based holdings of stocks]

As of June, 2024, the Company's policy-based holdings of stocks amounted to 68 million yen, or 0.24% of its net assets. The purpose of policy-based holdings of stocks is limited to the case of apparently enhancing relationships with companies with which the Company has business relations. Other than in such exceptional cases, the Company has a policy not to do policy-based holdings of stocks. It is the Company's policy to limit the sum of the holdings of investment securities and policy-based holdings of stocks to 10% or less of the Company's net assets in accordance with the Board of Directors' resolution. The Company does not have any cross-held stocks. The Board of Directors reviews and verifies, based on proposals made by the Investment Committee, each of potential and executed investments of policy-based holdings of stocks and scrutinizes their rationality, purpose and benefit as needed.

The Company's voting rights on policy-based holdings of stocks is exercised after analyzing the condition of subject companies, and having a dialogue with subject companies and seriously judging whether proposed resolutions are conducive to the sustainable growth of subject companies and to the growth of the Company's business.

[Principle 1-7 --- Matters Regarding Related-Party Transactions]

The Rules concerning the Board of Directors stipulate that related-party transactions require the Board of Directors' resolutions in order not to jeopardize the interests of the Company and its shareholders. The directors and officers of the Company are obliged to answer to "Business Execution Confirmation" and "Questionnaire on Related-Party Transactions" every year.

[Supplementary Principle 2-4-1]

Under the Company's Credo (corporate philosophy), the Company prioritizes the development of human resources with high individual personality and teamwork spirit, and aims to build a bright and transparent workplace and a free and lively corporate culture where employees can perform their duties with passion. The Company is working to enhance human capital as described below:

- Attitude toward human resource development

- (1) Human development policy

Since establishing "Ichiyoshi Credo" in 2006, the Company has striven to enhance a sustainable corporate value, at the same time emphasizing its engagement with various stakeholders through securities business.

While "Ichiyoshi Credo" points to the Company's raison d'être in its relationship with various stakeholders, the Company recognizes that human resources are a target of priority investment in the belief that human resources themselves are the source of growth.

Thus, in the foregoing item of <Materiality> (Important tasks), the Company has put up "Furtherance of personnel education and training to cope with changing circumstances" as a task to be concretely tackled with on an on-going basis.

- (2) Training system

Under the customer-focused "Stock-type Business Model," the Company need to provide an investment advice matching each customer's intention and gaining his/her trust. In order to do that, the Company need to fulfill internal personnel training to enhance the quality of advisors. In addition, the Company has in place "Self-skill-promotion Program" and provides a subsidy for correspondence courses for securities analyst or certified financial planner or award incentive remuneration to an employee who has acquired such qualification. In addition, the Company has in place a system to provide a subsidy for tuition fee for correspondence courses for upskilling other than qualification.

- (3) Dispatching of employee to outside company as trainee

The Company has a policy to dispatch an employee as trainee to an outside company (whether it is a securities company or not) and have his/her knowledge and experience as trainee contribute to raising of effectiveness of, or improvement on, intra-company operations or administration.

- Policy toward improvement on in-house circumstances

- (1) Policy toward improvement on in-house circumstances

Since 2017, with respect to improvement on in-house circumstances, the Company has scrutinized more than 50 related items semi-annually to attain "Worker-friendly and worthwhile working place." Thus, in the foregoing item of <Materiality> (Important tasks), the Company has put up "Furtherance of corporate culture to promote job satisfaction and employees' sense of engagement," "Realization of worker-friendly mood considering gender sensitiveness" and "Forming of personnel and wage system considering diverse types of working." The Company naturally continues to tackle with "Worker-friendly and worthwhile working place."

(2) Policy toward diversity

The Company believes that the active involvement of female workers in the Company's business operations is indispensable to enhance the sustainable growth of its corporate value in the diversifying society. The Company is striving to improve working circumstances so that female workers can work lively and actively. Thus, the Company is proceeding with steps to decrease the difference in length of service between male and female workers and increase the ratio of female managers.

The Company also enhanced a system to balance work and home and made it easier to use the system. In the same spirit, the Company has in place systems to assist employees on leave or retired employees in returning to work. The Company also has in place a job-based re-employment system for retired employees keeping a high motivation.

< Progress toward diversity >

(3) Policy toward working place circumstances

To proceed with “Worker-friendly and worthwhile working place,” it is important for the Company to have engagement with employees and understand how they are dealing with operations. The Company has a system where office or branch managers regularly have one-on-one meeting with each employee and conduct a questionnaire survey on employees using engagement tools. In addition to the questionnaire, the Company has a system to conduct a self-report survey and personnel department’s interview with each employee. All these systems are intended to assist deliberations on employees’ assignment to capability-worth places and recognition of their higher skills.

[Principle 2-6 ---Role as Asset Owner of Corporate Pension Plan]

The Company has in place a hybrid pension plan combining a defined benefit pension plan and a defined contribution pension plan. The Pension Meeting of the Company receives from the department in charge a quarterly report on the defined benefit pension management and an annual-account settlement report on the defined contribution plan (the both reports are originally presented by the pension plan manager) and annually decides on the basic rate of defined benefit pension plan for the coming year. In addition to the Pension Meeting, the Pension Management Meeting is organized to formulate and review basic pension management policy, verify and review invested products and investment methods and monitor the pension plan manager.

[Principle 3-1 --- Enhanced Disclosure]

3-1-(1)

The Company has in place the “Ichiyoshi Credo” which contains management philosophy, management objective and action guidelines, and has formulated its 3-year medium-term management plan every three years since 1996, which have been published on its website.

3-1-(2)

The purpose of the Company’s corporate governance is to ensure that the management of the Company is performed in fairness in accordance with rules and regulations, and the Company’s corporate governance, along with its Internal Control System and Timely Disclosure System, forms the core body of the Company.

As part of its corporate governance efforts, the Company adopted its company with three committees system in June 2003, among many others.

The Company believes that the company with three committees system is the most effective system for corporate governance. The following are reasons why the Company moved to the company with three

committees system:

- To separate the function of the Board of Directors (which include decision on basic management policy and material business matters and supervision on duty performances of directors and officers) and the function of executive officers (which includes execution of business decisions), thereby speeding up management decision-making and enhancing the flexibility of business execution.
- To ensure the wholesome growth of the Company, enhance the transparency of corporate management, operate the Company's business from the standpoint of shareholders and further strengthen the corporate governance.
- To employ outside directors well experienced in laws, accounting and corporate management whose expert views and opinions will benefit the management of the Company.

3-1-(3)

The individual remunerations of the Company's directors and executive officers are decided by the Remuneration Committee. The Remuneration Committee consists of 3 directors of whom 2 are outside directors. The following is an outline of the policy of the Remuneration Committee for the determination of individual remunerations and related procedures:

- Basic policy:
To lift the desire and will of directors and executive officers for company management and derive their utmost management capability, so that they will contribute to the achievement of desired business result.
- Contents of remunerations:
Remunerations of directors and executive officers shall consist of "Monthly Basic Remuneration," "Remuneration Linked to Business Result," "Stock-Related Remuneration" and "Non-monetary Remuneration (such as a residential subsidy for living apart from family)."
- Procedures:
The Remuneration Committee meets each director and executive officer twice every year to rate his/her performance and decide his/her remuneration.
The policy and procedures for determination of individual remunerations of directors and executive officers are disclosed in the notice of shareholders' meeting and the annual securities report.

3-1-(4)

The Company is a company with three committees system. A proposed resolution for nominees for directors or dismissal of incumbent directors to be submitted every year to the shareholders' meeting is decided at the Nominating Committee which consists of independent outside directors as majority members and is chaired by an independent outside director. The nomination and/or dismissal of executive officers is made by the Board of Directors. The specific policy and procedures for nomination and/or dismissal are disclosed in the notice of the shareholders' meeting and the annual securities report.

3-1-(5)

The selection of nominees for directors and dismissal of incumbent directors to be submitted to the shareholders' meeting shall be decided by the Nominating Committee in accordance with the criteria established by the Nominating Committee.

The following are the selection criteria for nominees as established by the Nominating Committee and included in the Notice of 82nd Annual Meeting of Shareholders:

For inside directors;

- Superb management sense
- Superb leadership, foresightedness and planning ability
- High law-abiding nature
- Personal magnetism in and out of the Company
- Healthiness physically and mentally

For outside directors;

- High personality and insight
- Plentiful experience and expertise in business operations
- High law-abiding nature
- Unwavering independency as outside director
- Healthiness physically and mentally
- Qualification both as outside director under Enforcement Regulations of the Company Law and as independent director having no conflict of interest with shareholders under the Regulations of the Tokyo Stock Exchange

The reasons for the selection of nominees for directors at the last shareholders' meeting are disclosed in the attachment hereto.

With respect to the appointment or dismissal of executive officers, they should be qualified to make business executions entrusted by the Board of Directors.

[Supplementary Principle 3-1-3]

The Company is attitude toward sustainability as described below.

“Ichiyoshi Credo” is a basis for the Company' sustainable growth.

In order to build a “Name-brand Boutique House” which is a management goal under “Ichiyoshi Credo” and realize the management philosophy for “Remaining as a Company of Customers' Trust and Choice,” the Company regards the expansion of “customers' assets in custody” as an overriding item of its management strategy and its most important management index.

“Customers' assets in custody” is a barometer for customers' trust and represents the Company's basic corporate strength.

By expanding “customers' assets in custody,” the Company aims to make a fundamental shift of its business model from “flow-type” mainly based on brokerage commissions to “stock-type (asset-

accumulation type) chiefly based on trailer and management fees on investment trust funds and fund-wrap account fees.

Hence, the Company will concentrate its personnel, assets and capital on the following areas:

1. Staff training to enhance the quality of advisors and headquarter staff.
2. Expansion of store network in around Tokyo.
3. Hybrid customer approach and advice using digital devices and face-to-face meeting.
4. Setting up of Ichiyoshi Financial Advisors to utilize its channels.
5. Pursuance of belief in “Not selling products simply because they are popular.”
6. “Triangle Pyramid Management” based on the comprehensive strength of the Ichiyoshi group consisting of Ichiyoshi Securities, Ichiyoshi Research Institute, Ichiyoshi Asset Management, Ichiyoshi Business Service and Ichiyoshi Financial Advisers.
7. High-level legal compliance with customers’ interests in focus.
8. High-level corporate governance.
9. Creation of worker-friendly and worthwhile workplace.

The Company has adopted, for the past 20 years, “cost coverage ratio” to measure the progress of its shift to “stock-type (asset-accumulation type) business model.”

The cost coverage ratio represents the ratio at which operating cost and expenses are covered by the sum of retailer fees and management fees on investment trust funds and fund-wrap account fees.

The cost coverage ratio in fiscal 2000, the first fiscal year of its application, was approximately 7%, that in fiscal 2013 was approximately 29% and that in fiscal 2023 was 61.2%.

This steady rise in the ratio indicates how the shift to “stock-type (asset-accumulation type) business model” has progressed.

[Corporate Philosophy]

The Company has made efforts to “Build a company like no others so far in Japan” based on “Ichiyoshi Credo” as a pillar of its corporate philosophy. The Credo records “the Company’s Principles and Action Guidelines” which directors, officers and employees all hold as their common measure of value for the Company’s *raison d’être* in the community.

<Basic Policy and Operational System to Promote Sustainability>

In addition to promoting Corporate Philosophy further, the Company has in place “Basic Policy for Sustainability” to contribute to realizing a sustainable society.

○Basic Policy for Sustainability

The Company will deal with various tasks relating to circumstances, society and community under “Ichiyoshi Credo”, thereby contributing to the development of, and improvement on, circumstances, society and community. Through such contribution, the Company seeks to grow continuously in the finance and securities industry, at the same time building a more solid business model and raising its

corporate value.

1. For Employees (as Human Capital)

Please refer to [Supplementary Principle 2-4-1]

2. For Customers (Business Operation on a Customer-first basis)

The Company’s motto is to “Be a Securities Company Like No Other So Far in Japan.” To realize this motto, the Company makes it a management objective to build a “Name-brand Boutique House” in the finance and securities industry. The Company has proceeded with business operations on a “Customer First Basis” since its founding. Following the Japanese Big Bang in late 1990s, there started the movement of “From Savings to Investments.” To promote this movement further, the Company has been making efforts to transform itself to “Stock-Type Business Model” (asset-accumulation type business model), thereby providing customers with high-quality products and better services, all for customers’ asset building.

[Triangular Pyramid Management]

Under this triangular pyramid management, 4 divisions (“Customer services,” “Products and Management,” “Research” and “Backup”) form their respective facets of the pyramid and support one another, thereby maximizing functions of each division/ subsidiary. Co-working between and among divisions and subsidiaries will further enhance synergistic process. The synergistic process will help provide better services, better products and more useful information, thereby contributing to customers’ asset and business management.

“Belief in not selling products just because they are popular”

“Belief in making proposals tailored to customers”

-What not to do for customers 7 standards of Ichiyoshi
(enforced for past 20 years)

-What to do for customers

- We do not deal in publicly-offered structured bonds.
- We deal in only high-rated bonds, not low-rated or non-rated bonds.
- We do not deal in privately-placed funds.
- We do not solicit for purchase or sale of individual foreign stocks.
- We select investment management companies on the basis of their reliability and continuity.
- We do not solicit for futures or options.
- We do not engage in foreign exchange margin trading.

- We intend to be a company which can have a long-term relationship with each of our customers as his or her only one partner as if like a tailor who makes the best individually-ordered suit for each of his customers.
- We will present each of our customers with an investment portfolio most suited for his or her intention based on our hearing of his or her needs.
- We will make a follow-up on our proposed portfolios in accordance with changes in market conditions or customers’ needs.

3. For Shareholders (Action to Implement Management that is Conscious of Cost of Capital and Stock Price)

Please refer to [Principle 5-2]

[Medium-Term Management Plan (3-D)]

The Medium-Term Management Plan “3-D” targets “Customers’ Assets in Custody of 3 trillion yen,” “Cost Coverage Ratio of approximately 70%” and “ROE of 10%” and foresees PBR of 1.2 times at the end of the Plan (as compared to 1.0 time as of March 31, 2024).

Numerical targets contained in “3-D”

Items	Targeted figures (as at March 31, 2026)
Customers’ assets in custody	3 trillion yen
Cost coverage ratio*	70%
ROE (return on equity)	10%

*Cost coverage ratio is the ratio at which the sum of trailer fees, investment trust management fees and wrap-account fees covers the selling, general and administrative expenses.

[Policy and Result regarding Decision on Dividends out of Retained Earnings]

(1) Policy on Dividends out of Retained Earnings

The Company places its stress on a continuous stream of dividend payment linked to business result. In deciding on an amount of dividend, payout ratio is a basic measure.

Additionally, DOE (namely, ratio of dividends to shareholders' equity) is taken into account for a continuous stream of dividend payment.

Specifically, the Company has adopted the payout ratio of approximately 50% and the DOE of approximately 2%, the both measures being calculated semiannually on a consolidated basis and the larger result of the calculation between the two measures being chosen.

(2) Actual Dividends Paid out of Retained Earnings for Fiscal 2023

Under the dividend policy, an interim dividend per share paid out of the Company's retained earnings to shareholders of record as of September 30, 2023 was 17yen (calculated on the basis of the DOE measure), and a final dividend per share payable to shareholders of record as of March 31, 2024 is to be 17yen (calculated on the basis of the DOE measure), thus an annual total dividend per share being 34yen.

Dividend payment record for recent 3 fiscal years:

	For fiscal year ended Mar 2022	For fiscal year ended Mar 2023	For fiscal year ended Mar 2024
Interim dividend	19yen	17yen	17yen
Final dividend	19yen	17yen	17yen
Total for the year	38yen	34yen	34yen

4. For Society (regarding Climate Change)

● Risk relating to climate change and effect on business activities and revenue made by revenue opportunity

In order to effect appropriate asset valuation and proper asset allocation in the management of customers' accounts on a medium- to long-term basis, the Company needs a consistent and appropriate disclosure of information regarding climate change-related risks to investment target companies and their earnings. The lack of such disclosure would cause troubles to the management of customers' financial assets, such as the loss of stability of customers' asset management and the lowering of medium-to long-term investment performance. If that should happen, customers' trading opportunities with the Company might decrease, resulting in the lowering of the Company's earnings.

Conversely, if investment target companies make consistent and appropriate disclosure of information, it will contribute to the stability of the Company's customers' asset management and to the raising of medium- to long-term performances of their investments. Such condition may help the Company increase its earnings.

Hence, Ichiyoshi Research Institute (IRI), which has long specialized in research on small-and medium-cap growth companies, has now adopted ESG achievement (including the handling of climate change) as one of its important criteria for the selection of research target companies. The result of

IRI's research is applied to the management of the Company's customers' assets.

Ichiyoshi Asset Management (IAM), a subsidiary of the Company, also applies IRI's research result on ESG to its management of investment trust funds.

Furthermore, IAM manages an investment trust fund, "Ichiyoshi ESGs Small-and Medium-Cap Stock Fund," which has now an asset balance of about 20 billion yen.

Thus, the Company believes that customers' assets and the asset balance of IAM's publicly-offered investment trust funds are one of useful indicators of how climate change and its risk have affected the Company's business activities and earnings.

● Response to climate change based on TCFD proposal

Having formulated the "Basic Policy for Sustainability," the Company has defined material tasks to be tackled with (Materiality). Selecting out "Approach to CO2 Reduction" among others for the benefit of the society, the Company intends to make contribution as member of society.

Considering the importance of public disclosure of climate-related financial information, the Company has agreed with TCFD (Task Force on Climate-related Financial Disclosures) and is exerting to fulfill its information disclosure.

(For further information, please log on to the Company's website :

<https://www.ichiyoshi.co.jp/sustainability/tcfd>)

(1) Governance

The Company has in place "Sustainability Promotion Meeting" as a conference body to plan, enforce and improve how to promote sustainability enhancement. The Meeting is under the supervision of the Board of Directors and the chairman of the Meeting is the incumbent executive president, who will make periodical reports on the Meeting to the Board of Directors. The secretariat for the Meeting is "Sustainability Promotion Room" which acts as center of sustainability promotion of the Company.

(2) Strategy

With respect to risks arising to the Company arising from climate change include a risk brought up by moving to low-carbon economy and a risk related to physical change brought up by climate change. With respect to opportunities, the Company has evaluated imaginable effects from the point of views of products/services and market. With factors taken into consideration, the Company believes that there will not be material effects on the Company's business, but the Company will continue to periodically watch changes in circumstances.

(3) Risk management

Since the Company believes that risks relating to climate change will have wide-ranging effects on the Company's business as financial-instruments dealer, the Company regards the related risks as major ones and will have the "Risk Management Committee" manage them. The proceedings at the Committee will be reported to "Internal Governance Committee," which will convey the result of deliberations to the Board of Directors.

(4) Indices and objects

In order to enhance conformity with GHG Protocol (international standard) concerning supply-chain emission, the Environmental Agency and the Ministry of Economy, Trade and Industry have formulated guidelines. In accordance with the guidelines, the Company has its GHG emission (Scope 1, 2). Based on the emission, the Company evaluates risks and opportunities relating to climate change and measures a progress on its response.

< GHG Emissions: Unit: t-CO2 >

	Scope 1	Scope 2	Total
For fiscal 2022	430	824	1,255
For fiscal 2023	403	866	1,269

(Note) Targets of computation are the Company and its consolidated subsidiaries.

Employees' dormitories are not included in the computation.

In the course of its business, the Company is actively involved in the contribution to the lowering of environmental burden and realization of non-carbon society. Specifically, the company is severely controlling the temperature of air conditioners, using recycled paper and vegetable oil ink and promoting online meetings in and out of the Company and online seminars for customers to reduce CO2 emissions in connection with the movement of people. The Company is also changing various procedures with customers into online-based ones, resulting in less use of paper.

In addition to these activities, in areas where the Company cannot make contributions through its mainline financial services, the Company has made donations in line with the spirit of "Ichiyoshi Credo" for more than 20 years, one of such donations being "Ichiyoshi Mangrove Project" which copes with climate change.

○Mangrove project: Planted cumulative 480,000 mangroves since 2009.

Building natural banks against damages caused by earth warming.

○Humanitarian medical assistance: Pediatric vaccination to approx.1,079,000 children since 2009. Also, assisting in providing fundamental medical services, rebuilding health institutions and developing medical staff.

○Guide dog project: 7 guide dog debuts since 2005. Training of guide dogs and assisting in rehabilitation for visually impaired persons.

○school building construction project:

Built 14 school buildings in 9 Asian nations since 1996.

Assisting in improvement on learning environments for children living in developing nations.

The Company will continue to deal with various tasks surrounding communities and contribute to realization of sustainable society.

- Project of vegetable garden on the roof: To assist in children playing in the nature in partnership with Edible KAYABAEN.
- Financial education project: Educating junior and senior high school students as to finance and their future careers.
- Ichiyoshi SDGs-related Small- and Medium-Cap Equity Fund:
Investing in domestic small- and medium-cap stocks engaged in business activities related to the achievement of SDGs.

[Supplementary Principle 4-1-1]

The power and role of the Board of Directors are stipulated in the Regulations of the Board of Directors (the “Board”). The basic function of the Board is “to resolve on legally-required matters, decide or approve basic management policies and material matters on business executions and supervise business executions by directors and executive officers”.

Executive officers are appointed by resolution of the Board of Directors. The scope and contents of their business executions are stipulated by the Regulations of Executive Officers. Their term of office is 1 year. Executive Chairman, Executive President, Executive Deputy President, Senior Managing Executive Officer, Managing Executive Officer and Representative Executive Officer are appointed by resolution of the Board of Directors.

[Principle 4-8—Effective use of independent and outside directors] [Supplementary Principle 4-8-1]

[Supplementary Principle 4-8-2]

In order for independent and outside directors to perform their role and responsibility for the sustainable growth of the Company and the medium- to long-term enhancement of its corporate value, the Company has in place the “Meeting of Directors without Executive Power” and the “Meeting of Independent and Outside Directors.” The Meeting of Independent and Outside Directors has its head independent and outside director who officiates for liaison with the management team and for relationship enhancement among independent and outside directors.

[Principle 4-9 --- Judging criteria and quality for independent outside directors]

Outside directors of the Company are required to meet with conditions set out in the Company Law, to be independent as defined under the Regulations of the Tokyo Stock Exchange and satisfy the selection criterion for outside directors laid out by the Nominating Committee of the Company.

The outside directors of the Company provide the Company with fair and objective views and opinions and their respective experience and expertise, as detailed in the attached skill matrix, are reflected on the Company’s management.

[Supplementary Principle 4-11-1]

The Board of Directors of the Company is basically constituted to contain both inside and outside directors equipped with experience and expertise, as detailed in the attached skill matrix, thus maintaining the balanced diversity in terms of knowledge, experience and capability. The number of directors is limited to 10.

[Supplementary Principle 4-11-2]

The Company's notice of annual shareholders' meeting and annual securities report disclose whether the directors have the position of director on another listed companies or not.

[Supplementary Principle 4-11-3]

Since before the installation of the corporate governance code, the Company has had in place the company-with-three-committees system separating decision-making and execution with outside directors consulting fully with executing officers. Currently, as before, free and open discussions are being made at meetings of the Board of Directors, with executing officers listening to comments by outside directors. When there arise matters requiring more data in the eyes of outside directors, such matters will be treated as items of continued deliberation, thereby ensuring transparency.

In order to further ensure the effectiveness of the Board of Directors, the following measures are being taken:

(1) Meeting of non-executive directors and meeting of outside and independent directors

The meeting of directors without executive power is held with the Chairman of the Board of Directors acting as chairman for the purpose of supervising the Company's management from the independent and objective points of view. At the meeting, exchanges of views on securities industry, economy, social matters, beside the management of the Company are made freely and openly, thereby ensuring the effectiveness of the Board of Directors. Such meetings were held 16 times for the fiscal year ended March 31, 2024.

The meetings of independent and outside directors were held once for the fiscal year ended March 31, 2024 for the purpose of exchanging and sharing views widely on the Company's business as a whole.

(2) Outline of questionnaire result on effectiveness of Board of Directors

Since 2017, questionnaire to all directors has been conducted for the purpose of surveying the performance and effectiveness of the Board of Directors. 32 items in the questionnaire are intended to test whether the Board of Directors is properly functioning. The results are used to improve on problem areas and strengthen the Company's advantages, thereby continuously ensuring the effectiveness of the Board of Directors.

With respect to the effectiveness of the Board of Directors as a whole for the fiscal year ended March 31, 2024, the Company believes that the running of the Board of Directors was made in a proper manner, that deliberations at the Board of Directors' meetings were actively made by taking advantage of each director's knowledge and experience and that the Board of Directors' ability to supervise business

executions functioned effectively.

For reference, Japan Corporate Governance Research Institute (JCGR) has been conducting research on corporate governance status with stress on the effectiveness of the board of directors through its questionnaires sent to companies listed on the Prime Section of the Tokyo Stock Exchange. JCGR revised the contents of the questionnaire with the substantial reallocation of score points among items in 2019. Based on the revised format, Ichiyoshi was ranked 14th in the JCG Index in 2023 (8th in 2022).

[Supplementary Principle 4-14-2]

The Company believes that directors need training to keep up quality and ability as director, and along this belief, provides inside directors with various training courses such as the following: occasional lectures by in-house advisers versed in financial and capital markets, bureaucracy, political circles and journalism; participations in the study group which consists of experts in various fields; attendances at seminars outside the Company; and legal training by the Company's legal counsel.

[Principle 5-1 --- Policy for constructive dialogue with shareholders]

● System for shareholders' inquiry:

The officer in charge of the Public Relations Office and/or the officer in charge of the Administrative Department are primary officers in charge of shareholders' inquiry. With respect to individual shareholder's inquiry by telephone or his/her request for individual meeting, the Public Relations Office and/or the Administrative Department act as service window for their inquiry or request. With respect to inquiry from institutional investors investing on their stewardship guidelines or their request relating to an IR meeting, the Public Relations Office acts as service window, and the officer in charge of the Public Relations Office and/or the President, as occasion warrants, may respond.

● Direct IR activities vis-à-vis individual shareholders:

At the shareholders' meeting, the President gives an IR-colored report on business activities, spending enough time on the question-and-answer session. In addition, the Company participates in an information meeting designed for individual investors and issues a semi-annual business report (describing business results and topics) to shareholders.

● Direct IR activities vis-à-vis institutional investors:

The Company organizes a semi-annual "Business-Result Reporting Meeting for Institutional Investors". As occasion arises, an officer in charge of finance visits and talks with institutional investors. With respect to overseas institutional investors, in principle, the Company organizes once a year an overseas IR program where the President faces overseas institutional investors and exchange views with them. In addition, the Company occasionally holds telephone conferences with overseas institutional investors, receives institutional investors' visits from inside and outside Japan. The Company annually publishes "Investors Guide" both in Japanese and English for distribution to institutional investors inside and outside Japan and for use in IR meetings.

As regards information disclosure, the Company has in place "Information Disclosure Meeting" which pre-checks and approves press releases and other timely disclosures in accordance with its information

disclosure rules. The internal information disclosure rules are designed to enhance the timeliness and transparency of disclosure.

● Setting up Information Disclosure Meeting:

For the purpose of handling the above-mentioned information, the Company put in place the Information Disclosure Meeting. Ahead of making a press release or timely disclosure, information included in the press release or timely disclosure is reviewed by the Information Disclosure Meeting for approval. Timeliness and transparency are secured under the rules of the Information Disclosure Meeting.

[Principle 5-2]

[Action to Implement Management that is Conscious of Cost of Capital and Stock Price]

(updated : June 24, 2024)

In order to meet expectations of all stakeholders, including shareholders, of Ichiyoshi Securities Co., Ltd. (the “Company”), the Company has worked on business management by maintaining a full awareness not only of the level of revenue and profit on the profit & loss statement but also of the cost of capital and return on capital on the balance sheet so that it will lead to an increase in corporate value on a medium- to long-term basis and realize a sustainable growth.

PBR (price book-value ratio) is one of corporate-value barometers based on the balance sheet and a product of ROE (return on equity) and PER (price earnings ratio), and the Company regards the raising of ROE, or rather the raising of return on capital by maintaining the high level of equity ratio, as the most important for the improvement of PBR.

Specifically, the Company will aim to complete its management target of customer-focused “Stock-Type Business Model,” and make efforts to expand customers’ assets in custody chiefly based on investment trust funds and wrap-account assets, both the sources of stable revenue, so that it will achieve return on capital surpassing the cost of capital and sustainable growth.

Since an increase in customers’ assets in custody and a rise in revenue are proved to have a proportional relationship with each other, the Company believes that the increase in customers’ assets in custody itself will lead to the rise in revenue resulting in the raising of PBR.

Therefore, the Company regards the cost coverage ratio (the ratio at which the sum of trailer fees, fund management fees and wrap-account fees covers the selling, general and administrative expenses) as an index to measure the progress in “Customers’ Assets in Custody” and the completion of “Stock-Type Business Model,” and has adopted “the cost coverage ratio” as the most important management target. The cost coverage ratio is also included in the current Medium-Term Management Plan “3-D” together with “Customers’ Assets in Custody” and “ROE” as targets.

The Medium-Term Management Plan “3-D” targets “Customers’ Assets in Custody of 3 trillion yen,” “Cost Coverage Ratio of approximately 70%” and “ROE of 10%” and foresees PBR of approximately 1.2 times at the end of the Plan (as compared to 1.0times as of March 31, 2024).

Numerical targets contained in “3-D”

Items	Targeted figures(as at March 31, 2026)
Customers' assets in custody	3 trillion yen
Cost coverage ratio*	70%
ROE (return on equity)	10%

*Cost coverage ratio is the ratio at which the sum of trailer fees, fund management fees and wrap-account fees covers the selling, general and administrative expenses.

2. Matters Concerning Functions of Business Execution, Auditing, Supervision, Nomination and Remuneration Decision (Outline of Current Corporate Governance System) Update

<Outline of corporate governance system>

To raise the efficiency of management and strengthen governance functions, the Company has in place a company with three committees system which clearly separates business execution and management supervision functions. Business execution is performed by executive officers elected by the directors. The Company also has in place the system of the Operating Officers who execute business operations under the directions of the Executive Officers , thereby enabling prompt business decisions by a limited number of executive officers and enhancing the capability of business executions.

The supervising function of management is performed by the Board of Directors of which outside directors account for the majority.

The Company has in place the Internal Control Committee to act as a centralized control unit for the Company and its subsidiaries.

a. Board of Directors:

The Board of Directors currently consists of 3 inside directors and 4 outside directors. The Board of Directors as a decision-making organ resolves on items stipulated by laws and the Articles of Incorporation, decides or approves basic management policies and important matters concerning management and supervise the performance of duties by directors and executive officers. The meeting of the Board of Directors is held once a month in principle.

b. The Committee of Executive Officers:

The Committee of Executive Officers consists of 2 executive officers. The Committee of Executive Officers resolves on matters entrusted by the Board of Directors and coordinates activities among them for their smooth execution. The meeting of the Committee of Executive Officers is held twice a month in principle.

<Three statutory committees>

The Company has in place the company with three committees system under which the majority of members of each of the three statutory committees are outside directors.

a. The Nominating Committee

The Nominating Committee consists of the Chairman of the Board of Directors and two outside directors, all appointed by the Board of Directors. The Nominating Committee decides on the nominees for directors or directors to be dismissed and submit them to the shareholders' meeting for approval in accordance with the Rules of the Nominating Committee. The meeting of the Nominating Committee is held twice a year in principle.

b. The Audit Committee

The Audit Committee consists of three outside directors appointed by the Board of Directors. The Audit

Committee audits the performance of duties by the directors and the executive officers, prepares an audit report and a draft resolution to appoint or dismiss accountants to be submitted to the shareholders' meeting for approval. In the event of rejection of reappointment of accountants, the Audit Committee describes the reason therefor. The Audit Committee audits the legality and appropriateness of decision-making by directors and executive officers and the status of development of the Internal Control System in accordance with the auditing policy and the role-division set by the Audit Committee. The meeting of the Audit Committee is held once or more a month in principle.

c. The Remuneration Committee

The Remuneration Committee consists of the Chairman of the Board of Directors and two outside directors. The Remuneration Committee reviews and decides on the individual remunerations of directors and executive officers in accordance with the Rules of the Remuneration Committee. The meeting of the Remuneration Committee is held twice or more a year in principle.

<Other committees>

a. The Management Committee

The Management Committee consists of such directors and executive officers as the Chairman of the Board of Directors nominates. The Management Committee is an advisory body to the Board of Directors and, as such, reviews important and/or urgent matters for the smooth management of business and reports the result of such reviews to the Board of Directors.

b. The Internal Control Committee

The Internal Control Committee consists of 3 inside directors. The Internal Control Committee, aiming at assuring centralized internal control system over the Company and its subsidiaries, sets the internal control policy and reviews individual important matters concerning internal control. The meeting of the Internal Control Committee is held once a month in principle.

c. The Meeting of Non-executive Directors

The meeting consists of Chairman of the Board of Directors and 4 other outside Directors who exchange views and information on the Ichiyoshi group, the securities industry and economic system and conditions.

d. The Meeting of Independent Outside Directors

Independent and outside directors actively contribute to discussions at meetings of the Board of Directors by exchanging and sharing their views and insights from independent standpoints, thereby enhancing the effectiveness of the Board of Directors. The Meeting of Independent and Outside Directors has its head independent and outside Directors.

<Other meetings>

The Company has in place "Sustainability Promotion Meeting" as a conference body to plan, enforce, check and improve how to promote sustainability enhancement, and the Risk Management Meeting (to consult on and cope with company-wide risk management), the Unified Compliance Meeting (to advise and follow up on review items at individual compliance meetings), and the Individual Compliance Meeting (to seek out risk items at individual sections for understanding and review), all as sub-bodies to the Internal Control Committee. In addition, the

Company has in place the Information Disclosure Meeting (to make proper, comprehensive and timely disclosure of any material event as it ever happens), and the IT Meeting (to review matters on IT investment and management and information security), both as decision-making organs of the Committee of Executive Officers.

<The function and role of outside directors for corporate governance, and coordination and cooperation among Internal Audit, audit by the Audit Committee and Accountants' audit and their relationship with the Internal Control Division>

The outside directors of the Company are charged with the responsibility of supervising the management of the Company and reflecting their expertise and experience on the management of the Company as a whole from the independent and neutral standpoint with no conflict of interests with shareholders.

The Company has in place a company with three committees system under which each of the three statutory committees consists of three members. The two out of three members in each committee are outside directors, forming a majority.

The outside directors receives reports on each business execution division at meetings of the Board of Directors and the Management Committee and exchange views with the Internal Audit division, the Internal Control Division and accountants, thereby enhancing their management supervision function.

<Status of accountants' audit>

The certified public accountants who performed the audit of the financial statements of the Company for the fiscal year ended March 31, 2024, were Mr. Hiroshi Fukumura and Mr. Toshihiro Morishige. They belong to EY ShinNihon LLC. The number of certified public accountants who worked with them in the audit was 5, and in addition, there were 17 assistants for them.

3. Reasons for Adoption of Current Corporate Governance System

The Company believes that the company with three committees system is the most suitable system which further enhances the transparency and flexibility of management decision-making, the promptitude and effectiveness of business execution and the surveillance over business execution, and decided to adopt the company with three committees system in June 2003.

III. Implementation of Measures for Shareholders and Other Stakeholders

1. Efforts for Active Meetings of Shareholders and Smooth Exercise of Voting Rights
